—Dhiyaan Mirii—

*I respectfully acknowledge the traditional custodians on whose land we are meeting on today.
I pay respects to their Elders past, present and emerging. May the children of today lead us to a brighter tomorrow.*

About SafeCare

- An evidence-based, parent-training program for parents of children ages 0-5 who are at-risk for or have been reported for child neglect or physical abuse.
- SafeCare educators work with families in their homes to improve parents' skills in three areas:
 1. **parent-infant/child interaction skills**
 2. **health care skills**
 3. **home safety**
- SafeCare is typically conducted in weekly home visits lasting from 50-90 minutes each. The program typically consists of 18-20 sessions for each family. SafeCare can be conducted by itself, or with other services.
